Currently studying a Master of Information Technology, from which I hope to enter the software development industry. Having moved from the small quaint town of Byron Bay, to the global city Sydney, I wish to take part in society's continual progression to a sustainable future and its technological advances.

Experience:

[2018-2019]

Casual Academic / [UNSW, Sydney]

- Mechanics of Solid
- Engineering Mechanics
- Autocad
- Soil Mechanics
- Water Resource Engineering
- Wastewater Engineering
- Interior Architecture Thesis

[2018-2019]

Cadet Engineer / [TTW, Sydney]

- Helped design structural members on a wide range of projects, from Olympic ski jumps to large scale hospitals.

[2018-2019]

Consultant / [180 Degrees (UNSW), Sydney]

- Worked with non-for-profits by improving business strategies and quantifying the benefits of programs for each dollar spent.

[2020-PRESENT]

Structural Engineer / [TTW, Sydney]

- Currently working on a number of highly technical projects, in particular working with engineered timber.

Education:

[2014]

HSC / [Xavier Catholic College, Byron Bay]

- House Captain
- Member of St Vincent de Paul & Leo's club

- Civil with Architecture Discipline Prize for the best performance in selected undergraduate courses including an Honours Thesis in Civil Engineering with Architecture

[2015 - 2019]

Civil Engineering with Architecture / [UNSW, Sydney]

- Final WAM – 83.4
- First Class Honours

[2020 - 2022]

Master of Information Technology / [UNSW, Sydney]

Interests:

- Surfing.
- Cooking.
- Travelling.
